Minimal Invasive Colorectal Surgery

28th and 29th September 2023

The Academy of Surgeons cooperates with the departments of surgery of Cantonal Hospital, St. Gallen | Switzerland and the University Hospital Salzburg | Austria. Together we will present you the second International STAR Course - Minimal Invasive Colorectal Surgery at the PMU Salzburg in September 2023.

This hands-on course offers the possibility to work on cadavers under guidance of renowned experts. Focused on practical experience and skill training in small groups of max. three participants per cadaver you will be able to gain maximum of capability and experience.
