

ESSO Advanced Course on the Management of Hyperthermic Intraperitoneal Chemotherapy (HIPEC) after Cytoreductive Surgery (CRS)

6-8 March 2025
Berlin, DE

Chairs

Beate Rau, *Charité University of Berlin Campus Virchow-Klinikum, Berlin, DE*
Martin Hübner, *Centre Hospitalier Universitaire Vaudois, Lausanne, CH*

This advanced course on the management of HIPEC after CRS aims at discussing evidence-based clinical decision-making in the management of primary and secondary peritoneal cancer. It will offer a multidisciplinary programme combining both practical aspects and theoretical problems.

Educational methods

- Participants will perform cytoreductive surgery in small groups in the wet lab using several new technical devices.
- Case reports
- Video discussion sessions
- Plenary up-to-date lectures
- Panel discussion

Main topics

- Treatment principles for PSM
- Tumorboard of a Patients with PSM
- Colorectal cancer
- Gastric Cancer
- The future of PSM-treatment
- Appendiceal cancer, Pseudomyxoma peritonei
- Mesothelioma
- Ovarian cancer

Target audience

- Senior residents (last two years of training)
- Experienced consultant surgeons

Registration fees
